

Museum Architecture and Planning

Since 1983, Mr. Nederhoff has specialized exclusively in the design and planning of museums. During this 28-year stretch, he has worked in key management, design and planning positions on more than 50 museum projects, representing a broad variety of museum types. He has extensive involvement in the planning, design and construction of science museums, art museums, history museums and multi-disciplinary museums. In addition, he has detailed design experience with numerous large-format film theaters. As VernerJohnson's Managing Principal, he has the firm's key leadership role. His primary duties include organizing and managing project teams. He maintains personal involvement on each project throughout all the phases, with particular emphasis on generating and developing the design concepts and overseeing the overall project team to insure that the design concepts are carried out to the highest level of client satisfaction and success.
