LEED Certification

Mr. McHugh is our LEED Program Director. He has completed Advanced LEED Training and has been certified as a LEED Accredited Professional.

Museum Experience

Since joining the firm in 1998, Mr. McHugh has played a key role in design, development of construction documents and in overseeing construction administration on a number of projects. His experience with the design of complex projects is invaluable.

Projects

Mr. McHugh is currently Construction Administrator for the Tubman African American Museum in Macon, Georgia. With a strong background in construction and project administration, Mr. McHugh has been responsible for design, development of construction documents, shop drawing coordination, coordination of structural and M/E/P engineers, overseeing design issues during building construction, and site visits.

Prior to his work on the Tubman African American Museum, Mr. McHugh was involved in the team for Computer Place at the Museum of Science, Boston. His responsibilities included design, creation of design development documents and of construction documents.

In addition to these significant projects, Mr. McHugh has participated in the design, construction drawings and detail drawings for the New England Aquarium Imax Theater in Boston, Massachusetts.

Additional Experience

Prior to joining E. Verner Johnson and Associates, Inc., Mr. McHugh obtained fifteen years of experience in a variety of project types. His responsibilities covered programming through construction administration, with extensive experience in consultant coordination on projects ranging from energy-conscious residences to complex medical facilities. His years of experience as an accessibility consultant for Adaptive Environments in Boston, MA has helped to assure that our museum spaces are an enriching environment for ALL users.

Mr. McHugh is active in the Boston Society of Architects as a member of the Committee on the Environment and as founding member of Architecture for Humanity Boston.
