

Sacheen Dampier LEED AP BD+C | Associate

Sacheen has a particular interest and knowledge in green design and sustainability. Since joining the firm in 2011, Sacheen has led the firm's efforts in attaining LEED certification for all of the museum clients desiring certification. Sacheen has also gained experience in the design and construction of museums, serving on the planning, design and construction administration teams on many of the firm's recent projects.

Ms. Dampier is a LEED AP BD+C professional

Selected Museum Architecture

Museum at Prairiefire, Overland Park, KS
Sacheen was an Architectural Designer for this new 41,000 sq.ft. museum, which features a changing exhibit partnership with the American Museum of Natural History. Her work included collaboration in the design of the museum through all phases. She was also the LEED Project Administrator for the museum, responsible for the documentation of all architectural LEED credits, as well as coordination of consultants' documentation. The project received Silver Certification.

Bollywood Museum, Mumbai, India
Sacheen was an Architectural Designer for the master planning and design of the new 155,000 sq.ft. film museum. She was involved in the planning / programming and design conceptualization of the museum, producing all of the master plan graphics, case studies and market analysis. She also played a significant role in the production and coordination of the schematic and design development documents.

Columbia Museum of Art, Columbia, SC
Sacheen was an Architectural Designer for the master

planning of the reorganization and expansion of this existing 100,000 sq.ft. Art museum. She was involved in the planning / programming and design conceptualization of the museum, producing all of the master plan graphics.

Flint Hills Discovery Center, Manhattan, KS
Sacheen was the LEED Project Administrator for this new 35,000 sq.ft. museum, focusing on regional ecology and history. She was responsible for the documentation of all architectural LEED credits, as well as coordination of consultants' documentation. The project achieved Gold Certification. Sacheen also worked on the Construction Administration team for the museum, which opened in April 2012

Tampa Bay History Center, Tampa, FL
A 60,000 sq.ft. history museum of the Tampa Bay region located in a city park on the downtown waterfront. Sacheen was the LEED Project Administrator for this museum. She was responsible for the documentation of all architectural LEED credits, as well as coordination of consultants' documentation. The project achieved Silver Certification.

Selected Museum Planning

During her time at the firm, Sacheen has gained experience in museum planning / programming and design conceptualization through her work with numerous museum clients. These projects include:

- **Virginia Artisan Center**, Staunton, VA
- **Bollywood Museum**, Mumbai, India
- **Columbia Museum of Art**, Columbia, SC
- **Air Power Museum**, Goldsboro, NC
- **Flint Hills Welcome Center**, Riley County, KS

Other Experience

Prior to joining Verner Johnson, Inc., Sacheen worked on a variety of project types, including large-scale international hospitality, and regional childcare centers. The experience in these projects gave her a keen design sensitivity to scale, proportion and site / cultural context.

Teaching Experience

Sacheen has served as a guest critic at the Boston Architectural College.
